

SWIFTSPACE

Fast and Flexible Solutions for Every Workspace

Swiftspace

Specifications Guide and Price List

April 2017 Version 1.0

Swiftspace Flexible Workspace Systems

"For organizations that understand uncontrollable change will be the order of the day in the workplace of the future."

The Challenges

In the past few years much has been written about change and how it is now accelerating beyond the ability of formal organizational structures to adapt. Innovation guru Gary Hamel author of *What Matters Now: How to win in a World of Relentless Change, Ferocious Competition, and Unstoppable Innovation* says, "The organizations that survive in the coming decades will be those that are capable of change as fast as change itself."

The Solution

There is a need to provide workspaces that have the ability to be adapted quickly and cost effectively to meet the future needs of the organization.

SOLO

By definition means to be done by one person alone in privacy. SOLO is a fully integrated and comprehensive mobile desk that comes in varying wall heights and sizes. The SOLO system requires no assembly to set-up or change. It can be folded for easy storage or reconfiguration.

FORESIGHT

By definition means to care or provide for the future. FORESIGHT is a fully integrated and comprehensive mobile benching system that requires no assembly to set-up or change. The FORESIGHT system can be folded for easy storage and reconfiguration.

SHAPE

By definition means to adjust or adapt something to the way you want. SHAPE is a fully integrated and comprehensive mobile benching system with both fixed height and electric height adjustable work surfaces. The SHAPE system can be folded for display features or for easy storage and reconfiguration.

"For businesses who have identified that future-proofing will be a high priority, with greater flexibility to accommodate headcount shifts and evolving work styles cost-effectively within the same footprint."

Overview

FEATURES AND BENEFITS

What makes us different?

Intelligent business decisions are not based on a quick glance, so one is encouraged to compare SOLO, SHAPE, and FORESIGHT to competing desking and benching systems. The differences are astounding and speak in favor of these Swiftspace solutions:

- **Swiftspace stations** are engineered to be set-up and taken down hundreds of times, without loss of functionality. This process can be completed by anyone without tools, eliminating the need for a professional installer.
- **Swiftspace stations** are on casters making them mobile. In other words, a complete office layout can be achieved in minutes. Build it, move it, take it down, or put it away with very minimal fuss. If desired caster covers are available to hide casters.
- **Swiftspace stations** come completely assembled with all of the necessary parts already attached to the workstation.
- **Swiftspace stations** fold up in seconds. With this process complete, many **Swiftspace stations** can be folded to save 75 - 85% of their previous cubic size, which means storage is a breeze.
- **Swiftspace stations** are made to be both functional and cost effective. Comparably priced to other desking and benching systems, they require no additional set-up or configuring expense.

How are we the same?

While the differences seen in the Swiftspace systems are what makes them a better fit for modern office spaces, their look, feel and statement of line make them comparable to other systems. It's permanent furniture with the ability to change - not in 5 hours but in 5 minutes. These Swiftspace products feature:

- Different lengths and widths of worksurfaces
- Different wall heights and lengths
- Minimalistic support structure
- Center and side storage components
- Multiple privacy solutions
- Mobile storage solutions
- Power/data solutions
- Lighting solutions
- Adjustable height solutions

Overview

ONE, TWO, THREE

SWIFTSPACE™ WORKSTATIONS OFFER A FAST AND FLEXIBLE WORK SPACE SOLUTION FOR BOTH OFFICE AND PRODUCTION FACILITIES

A unique patented folding workspace incorporates all of the interior components into a strong, lightweight frame. Every station arrives mounted to swivel casters, fully assembled and ready to install in minutes.

About Us

Swiftspace™ is located in Kitchener, Ontario. The company was formed out of the belief that workers still want to have a work space they can call their own. The issue for employers is that today's work spaces are too complex and labour-intensive to set up, require specialty installation, and are inflexible, and immobile.

Our Mission:

To create nimble but functional workspaces that can be set up by everyone.

Vision:

We will be the company that takes rigid workspace situations and transforms them into simple, fast, and flexible solutions.

Values:

- We will be innovators in the way we transform space
- We will value the contributions of our employees
- We will never take our customers for granted
- We will value product quality and safety over anything else
- We will think about the environmental impact of everything we do

Swiftspace™ workstations have been tested and meet ANSI/BIFMA X5.6-2010 Standards and MAS Green Certification for Low VOC's. Test results are available upon request by contacting Customer Service.

Overview

ENVIRONMENTAL FOOTPRINT

* Swiftspace products qualify for LEED credits. See our website for more details.

SOLO OVERVIEW

1

Worksurface

24" or 30"/36" (with a bow front flip-over top) depths. 48", 54", 66" or 90" lengths. (add 6" when open) For finish selection see page # 65

2

Accessories

Accessories rails, monitors arms, shelves, binder bins, add on privacy panels etc. See page # 19

3

Power/Data

With an easy to remove cover, and an optional power bar, the SOLO line has built in electrical answers. See page # 19

4

Visual Privacy

Semi-clear poly upper panels come standard. Whiteboard, EZO, and fabric covered tackboard panels are also available as upper options. See page # 14

5

Mobile Storage

Complete line of mobile pedestals, storage towers and lateral files. See pages # 52-54

6

Add on Privacy Walls

Additional privacy options available. See pages # 60-63

Additional information can be found on our website: www.swiftspaceinc.com/accessories-and-enhancements/

Electrical/Data

SOLO ELECTRICAL OPTIONS

Determining the Best Approach for getting power to the SOLO Station

Before deciding on the method to get power to your workstation it is important to first think about what the draw will be on the system in terms of amperage. To get an idea of the draw, take the number of items requiring power on the run times their estimated draw. (Average draw for laptops 1.5 amps, CPU's 2-4 amps, and monitors 1.5-2 amps)

Direct Plug-in with option to Daisy Chain

Each workstation can be ordered with a surface-level removable surge-protected powerbar that provides a total of six electrical outlets. The powerbar has a 15 ft power cord which can be plugged into any regular electrical plug to provide it with 15 amps of power. Depending on the amperage required per station and if local electrical code allows for it SOLO Line power modules can be daisy chained between stations using the power/data bottom rail. The maximum cumulative draw can't exceed 15 amps. *To order specify SSPB Powerbar \$ 131 List*

For greater power requirements please review the Swiftspace Electrical and Data Addendum found here: <http://www.swiftspaceinc.com/wp-content/uploads/2017/04/Electrical-and-Data-Addendum-V1.0.pdf>

Power/Data Rail Open/Closed

Receptacle Position

Multiple Stations in a Run

For a video about the new bottom rail visit : <http://www.swiftspaceinc.com/resources/videos/#solonewelectrical17>

Data cables can be put into the Power/Data rail for as long a run as required and then up to the surface for easy plug-in to the computer.

For Offices That Think Ahead

Ready to ship in 9 days!

Product Offering:

Heights: SUMMIT (66" h), SOLO+ (52" h), SOLO (41" h), SOCIAL+ (29" h) in both L-shape and Straights

Lengths: Space-saver (54" Open), 5x5 (60" Open), 6x6 (72" Open) or a combination of each

Different height and width combinations shown with White surface and Cosmic lower panels.

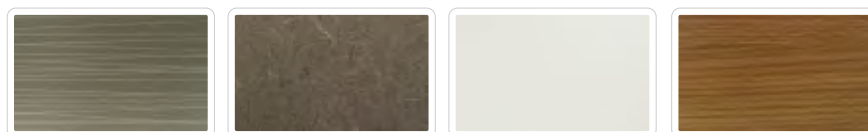

Laminate colour Available:

Cosmic Strandz – White or Grey Edgebanding

Evening Tigris – Black Edgebanding

Designer White – White or Grey Edgebanding

River Cherry – White or Grey Edgebanding

Upper Panels: Standard upper panels are semi-clear polycarbonate. For an upcharge, EZO tackable acoustic upper panels are available in a variety of colours, subject to stock levels. Before ordering please email mirjanastupar@swiftspaceinc.com for availability.

Accessories: Powerbar, Monitor Arms, Accessory Rails and Accessories, ezoBord upper panels

Weekly Capacity: 25 stations per week

Timing : Orders received by 3pm on Monday will ship by the following Friday (9 business days)

MANY ORGANIZATIONS ARE NOW REQUIRED TO PROVIDE HEIGHT ADJUSTABLE WORK SURFACES FOR THEIR EMPLOYEES AS PART OF THEIR OVERALL ERGONOMIC PROGRAM.

SHAPE OVERVIEW

This is because adjusting ones posture throughout the day from sitting to standing complies with the recommendations of today's industry experts. Research has proven that movement and its associated flexing of the spine improves one circulation and lubricates one's joints, which reduces long term muscle fatigue which makes for a better work environment.

1

Worksurface

24", 30" or 36" (with a bow front) depths.
48",60" or 70" lengths.

For finish selection see page # 65

2

Accessories

Accessories rails for mounting monitors, shelves, binder bins etc.

See pages # 32

3

Power/Data

With an easy to remove cover, provides an alternative to stand-alone for various configurations of the in-surface electrical plugs, USB ports, and data inserts. Each unit also comes with a removable surge protected powerbar. See page # 28

4

Visual Privacy

Acrylic or acoustic EZO panels on the back and/or ends of the surface can be easily adjusted to fully up or fully down positions. Non-adjustable Whiteboard, and fabric covered tackboard panels are also available for back and end privacy solution. See pages # 29-31

5

Mobile Storage

Complete line of mobile pedestals, storage towers and lateral files.

See pages # 52-54

6

Folding Top

Folds to less than 24" depth for easy transportation and storage. *33 degree drafting angle available upon request.

7

Height Adjustable

From 26"-52" with the push of a button. Can be combined with solo and Foresight workstations to give a combined selection height adjustable /fixed worksurface.

Electrical/Data

SHAPE ELECTRICAL OPTIONS

Determining the Best Approach for getting power to the SHAPE Station

Before deciding on the method to get power to your workstation it is important to first think about what the draw will be on the system in terms of amperage. To get an idea of the draw, take the number of items requiring power on the run times their estimated draw. (Average draw for laptops 1.5 amps, CPU's 2-4 amps, and monitors 1.5-2 amps)

Direct Plug-in with option to Daisy Chain

Each workstation can be ordered with a surface-level clamp-on powerbar that has one USB Charging port, two electrical receptacles, and an open data port. The powerbar has a 10 ft power cord which can be plugged into any regular electrical plug to provide it with 15 amps of power. Depending on the amperage required per station, and if local electrical code allows for it, the SHAPE power modules can be daisy chained between stations. However the maximum cumulative draw can't exceed 15 amps. Each unit also comes with a removable surge protected powerbar under the station.

For greater power requirements please review the Swiftspace Electrical and Data Addendum found here: <http://www.swiftspaceinc.com/wp-content/uploads/2017/04/Electrical-and-Data-Addendum-V1.0.pdf>

MOBILE TABLES

CREATING YOUR OWN SWIFTSPACE MOBILE TABLE IS AS SIMPLE AS SETTING UP OUR STATIONS.
JUST COMBINE A BASE AND TOP AND YOU ARE GOOD TO GO!

T-Flip-Top Base with Casters and Hand Release Specifications

Functional, high quality and economical, this base is perfect for many applications. It comes standard with casters and a handle release that mounts on the underside of the table, and is centered on the table length close to the edge of the table. The single handle allows for one individual to release both mechanisms simultaneously and flip the table up. Available in a number of standard powder coat colours.

Part Number	Column Diameter	Base Diameter	Recommended Top Depth	Base Spread	Weight	List Price \$877

SS7726	2"	2"	30-36"	26"	12 lbs.	

*Table Bases to be added to the desired table top on page # 35

SS7722 Flip-top base shown with Oval surface

Adjustable Height Hand Crank

Adjustability is a necessity in many environments. When there are multiple users of tables and desks, each person may need to position the table surface to an appropriate height to suit his or her own needs. Swiftspace offers two height ranges that easily adjust to provide a user with individual comfort and versatility. Our bases are adjustable in length from 45" to 68" to accommodate tables that are 45" to 72" long and tops that are 24" to 36" deep. The bases come with locking 2" casters. The table comes in two finish options: Black or Silver. Durability and fine craftsmanship are standard.

Specifications

- Adjustable frame size to accommodate multiple table lengths
- Hand crank location on front of table
- Handle retracts under table
- Maximum recommended lift weight 210 lbs.

FORESIGHT OVERVIEW

1

Worksurface

24" depths in single and double configuration, in 48", 60", 72" and 96" lengths.

For finish selection see page # 65

2

Accessories

Storage solutions can be mounted to your bench and stay there even when it is closed. Center and End hung storage is available as shared or full storage bins and can be ordered as open, with dividers, or with doors with locks.

See page # 47

3

Power/Data

The Aluminum Power/Data Trough with its hinged access door, provides an alternative to stand-alone, in-floor, or above-floor industry solutions.

Each unit also comes with a removable surge protected powerbars that provide four electrical outlets and two USB charger ports each. See page # 48

4

Visual Privacy

The mounting frame for the center storage can be left open to allow for visual access to the other side or filled with one of our panel inserts to provide visual privacy. If center storage is not chosen, center and end privacy can be achieved with various heights of frosted acrylic or sound dampening EZO. See pages # 40-44

5

Mobile Storage

Complete line of mobile pedestals, storage towers and lateral files. See pages # 52-54

6

Attached Storage

Complete line of mobile pedestals, storage towers and lateral files. See page # 45-46

Worksurfaces

SWIFTSPACE LINKING SURFACES

Who said you couldn't be creative with straight surfaces! Using FORESIGHT's line of innovative linking surfaces you can gang your worksurfaces together to create almost any shape you can imagine. And in typical Swiftspace fashion, no tools required.

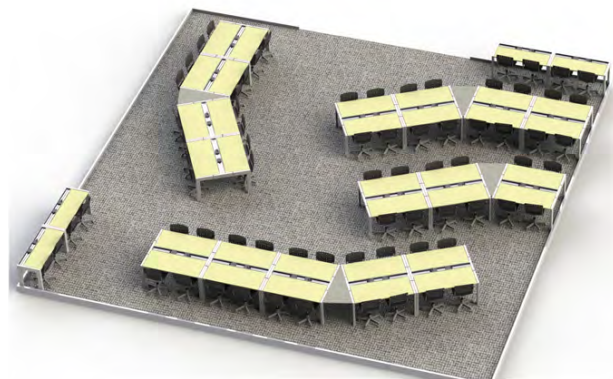

The linking surfaces are made from 1" thick high pressure laminate with a particle board core and 2mm edging, available in any of the standard Swiftspace laminates, custom laminates are available upon request. Custom laminate requests may affect price and lead-times. Surfaces easily attach on to the FORESIGHT bench using a bracket that connects into a mounting hole on the leg with a thumbscrew.

CUBBIES AND STORAGE

Attached Storage: Cubbies and Storage

FORESIGHT comes with a number of solutions for personal or shared storage whether it be paper, files, binders, or your own personal effects. The centre-mounted storage comes installed on the double station and remains in place even when it is closed. Single storage comes ready to be wall mounted. Cubbies and Bins mount on to the bench using an aluminum frame which is raised 12" off the centre beam. The opening can be left open, or filled with an Acrylic, Laminate, Whiteboard, EZO, or Fabric covered tackboard inserts (see page # 62).

Electrical/Data

FORESIGHT ELECTRICAL OPTIONS

Determining the Best Approach for getting power to the FORESIGHT Station

Before deciding on the method to get power to your workstation it is important to first think about what the draw will be on the system in terms of amperage. To get an idea of the draw, take the number of items requiring power on the run times their estimated draw.

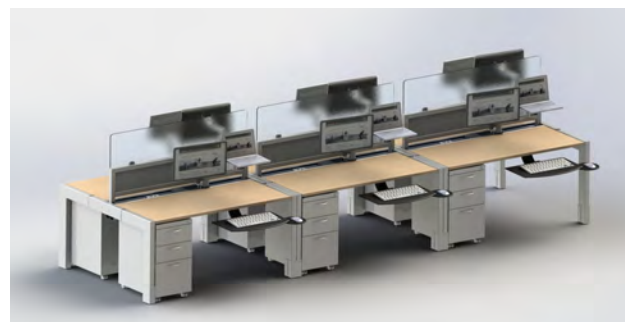

(Average draw for laptops 1.5 amps, CPU's 2-4 amps, and monitors 1.5-2 amps)

Direct Plug-in with option to Daisy Chain

Each workstation comes with a surface-level removable surge-protected powerbar (two are provided for 96" widths) that provides a total of four electrical outlets and two USB charger ports. . The surface powerbar is plugged into a surge protected powerbar located in the trough. This powerbar has a 15 ft power cord which can be plugged into any regular electrical plug to provide it with 15 amps of power. Depending on the amperage required per station and if local electrical code allows for it FORESIGHT Line power modules can be daisy chained between stations using the centre power/data trough. The maximum cumulative draw can't exceed 15 amps.

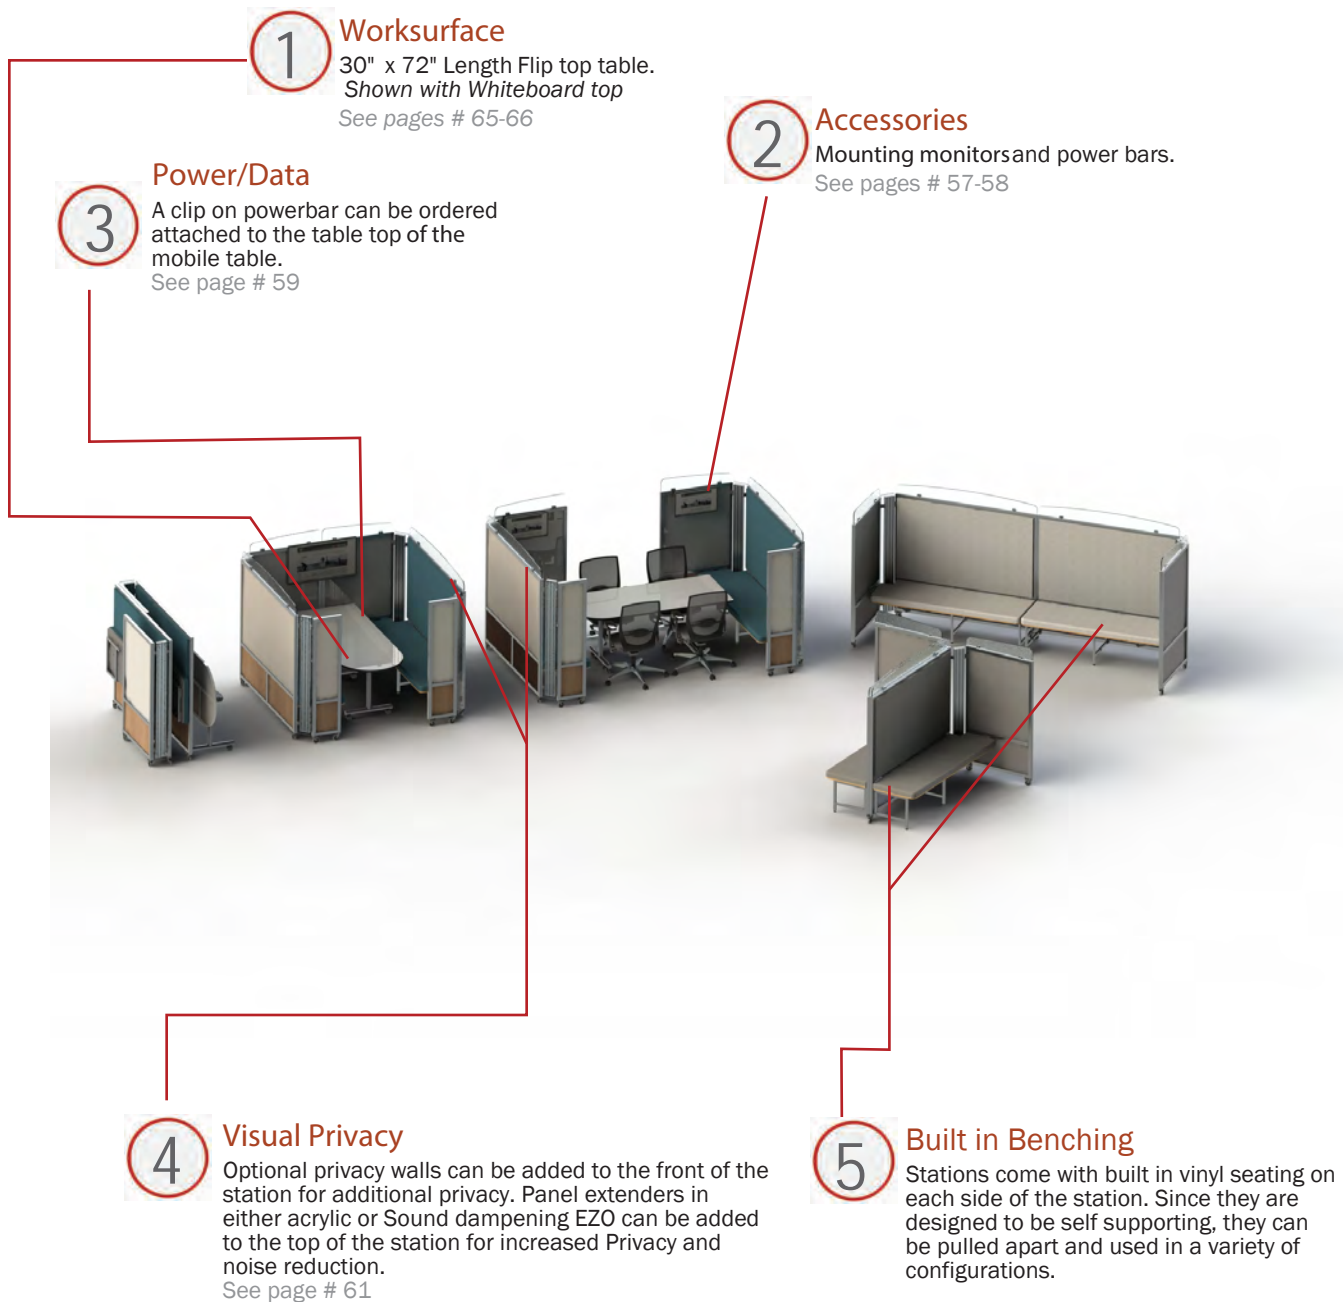

For greater power requirements please review the Swiftspace Electrical and Data Addendum found here:

<http://www.swiftspaceinc.com/wp-content/uploads/2017/04/Electrical-and-Data-Addendum-V1.0.pdf>

Data cables can be put into the Power/Data rail for as long a run as required and then up to the surface for easy plug-in to the computer.

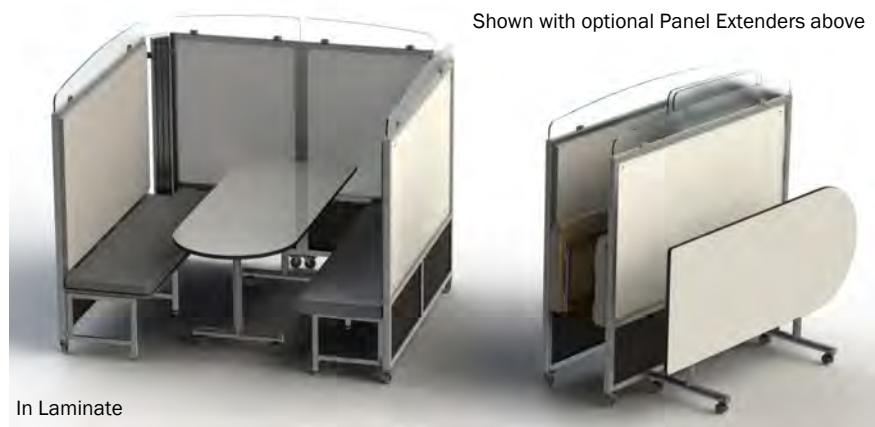

RENDEZVOUS OVERVIEW

Products & Pricing

RENDEZVOUS MOBILE MEETING ROOMS

ORGANIZATIONS ARE LOOKING TO DESIGN SPACES THAT GIVE THEIR EMPLOYEES COMFORTABLE, INFORMAL SPACES TO MEET.

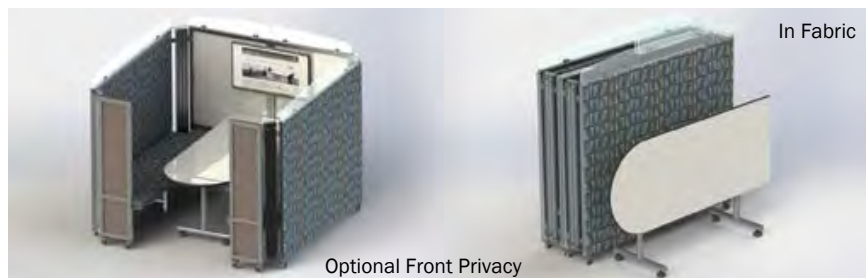

REFERENCE
See our Surfaces
and Powder coat
selection on pages
65-66

Imagine the possibilities: a completely mobile meeting space that can sit up to six people in a “booth”-like setting in under a minute. Designed by the Swiftspace Design Team, the RENDEZVOUS mobile meeting booth does just that!

Designed using the patented technology of the popular Swiftspace workstation, the RENDEZVOUS has the same major benefits that our customers love.

Think about a mobile self-contained wall and seating system that can be setup in seconds, by anyone, with no tools!

When no longer required it can be folded back up in seconds and stored out of the way. Sound like a Facility Planner’s dream?

Specifications

The overall footprint of the booth is:

- Wall height - 60" (option to increase to 72" with Acrylic Privacy Panels)
- Footprint when open - 79" x 72" (81" x 79" with Privacy)
- Footprint when closed - 23" x 74"
- Seat height - 19"
- Seat depth - 20"
- Seat width per side - 75.5"
- Seat weight rating per side - 1,000 lbs.
- Door opening - 41.5"

Products & Pricing

RENDEZVOUS MOBILE MEETING ROOMS

Specifications Standard

Construction is:

- Frame is constructed of 1.6" lightweight anodized aluminum.
- Outside upper and lower panels are made from 0.16" melamine available in any of our 16 standard colours.
- Inside upper and lower panels are made from 0.16" available melamine in any of our 16 standard colours.
- The casters are 2.5" in diameter with grey non-marking rubber wheels that swivel and lock.
- Seat and back are made with a ½" plywood core covered in 3 inch foam.
- Seat and back upholstery can be ordered from any of our standard seating upholstery available from CF Stinson. To view go to www.cfstinson.com and select "Seating." The seat and back can be ordered with different upholstery. Fabric can be ordered from other suppliers however an upcharge will be applied for cost in excess of \$25 per yard.
- Acrylic Corner Covers come standard.
- **Seat only available in Vinyl Upholstery.**

REFERENCE

Applications

Sound Dampening Solutions From Swiftspace

SOUND DAMPENING SOLUTIONS FOR SWIFTSPEACE PRODUCTS

As work areas continue to open up, reducing noise has become very important. As a solution organizations are looking for ways to incorporate sound dampening materials into as many possible areas of the workspace as possible. Using acoustical materials in insert and privacy panels is a great way to introduce colour into the workplace, reduce sound vibrations, plus provide a tackable surface.

As a solution Swiftspace is pleased to be providing all of our tackboard and privacy panel options in ezoBord. EZO is a one of a kind acoustic panel that it is flexible, decorative, tackable, and recyclable.

EZO Product Specs:

Colours : 15 standard colours . For colour selection go to <http://ezobord.weebly.com/colors.html>

Sound Absorption : It has a NRC rating of 0.75 for mid to high frequencies. This means that on average it absorbs 75% of the sound that hits it.

Material Composition : 100% polyester made from 40-50% recycled water/soda bottles without use of adhesives or other bonding agents.

Environmental : Low-VOC, min 40% recycled, PET 100% recyclable.

Fire Testing : ASTM E-84 / CAN ULC S102

Information

CONDITION OF SALES, RETURN POLICY & WARRANTY

Payment

All payments are fully due within 30 days after the date of shipment or pick up subject to the buyer passing credit approval. Buyer agrees not to withhold payment on any invoice because of partial delivery or open punch list items. A finance charge of 1-1/2 percent PER MONTH will be computed and added to all past due accounts. Annual percentage rate is 18 percent but in no event higher than the maximum allowed by law. These terms and conditions of sale are those of Swiftspace Inc., a manufacturer established since 2009, whose business is the manufacturing of mobile workspaces.

Governing Provisions

All sales by Swiftspace Inc. ("Seller") are made subject to the following terms and conditions of sale. Seller objects to any additional or different terms contained in any purchase order or other communication previously or hereafter provided by buyer to Seller. No such additional or different terms will be of any force or effect; and buyer's placement of any order for goods to be provided by Seller constitutes buyer's unconditional acceptance of the following terms as the entire agreement between buyer and Seller with respect to the purchase and sale of such goods. The following terms and conditions, and any contract for the sale of goods by seller shall be governed by and construed in accordance with the laws of the province of Ontario, without reference to principles of conflicts of laws.

Prices

All prices are stated as list prices. All prices and minimum order requirements are subject to change without notice. Only authorized discounts may be applied at time of order.

Specials

Swiftspace acknowledges that from time to time customers may request decreases or increases to the standard wall heights and lengths so that a workstation can fit into a required space. These type of product modifications will be classified as "Specials". List Price for these products will be the List Price of the next largest comparable product in the Swiftspace standard product line.

Customs

An item will be classified as a "Custom" product if it doesn't fit the shape configuration of any of the Swiftspace standard products. List Price for these products will be determined based on the specific item cost.

F.O.B.

Unless otherwise agreed, all shipments and sales are made FOB AYR., CANADA. Freight is prepaid and added to your invoice as a separate line item. Freight quotes can be obtained on the Swiftspace website using the freight calculator.

Taxes

All sales, use, excise and other taxes applicable to the sale of the products shall be paid by buyer. If buyer claims an exemption from any tax, buyer shall submit to Seller the appropriate exemption certificates
Swiftspace Specifications Guide

Warranties

A. Lifetime Warranty on all aluminum parts and metal hardware parts like posts, connectors, cantilevers, with-out recourse. Other exposed panel components are not covered by this life time warranty and will be considered in section B of this paragraph.

B. Products purchased from Seller may be manufactured by third parties, which may or may not provide a warranty to the purchasers of their products. Seller agrees, upon request by buyer, to assign to buyer any and all such warranties, without recourse. Seller warrants that all products manufactured by Seller and supplied here under will conform to the specifications submitted by buyer, and that such goods will be manufactured and inspected in accordance with the generally accepted practices of companies in the business of manufacturing. Seller warrants that all products manufactured by it and supplied hereunder shall be free from defects in materials and workmanship for a period of 5 years from the date of shipment. If, within such period, any such product shall be proved to Seller's satisfaction to be defective, such product shall be repaired or replaced at Seller's option. Such repair or replacement shall be Seller's sole obligation and buyer's exclusive remedy hereunder, and shall be conditioned upon Seller's receiving written notice of any alleged defect within 10 days after its discovery and, at Seller's option, return of such products to Seller, F.O.B. its factory.

Except for the warranties set forth in this paragraph, seller shall have no other obligation or liability to buyer, and hereby disclaims, any express or implied warranty of any products, including but not limited to any implied warranty of merchantability or fitness for particular purpose.

Any description of the product, whether in writing or made orally by Seller or Seller's agent, are for the sole purpose of identifying the product and shall not be construed as an express warranty. Any suggestions by Seller or Seller's agent regarding use, application or suitability of the product shall not be construed as an express warranty unless confirmed to be such in writing by Seller.

Exclusion of Consequential Damages and Disclaimer of Liability

Except as otherwise agreed in writing, Seller's liability with respect to the products sold hereunder shall be limited to the warranty provided and, with respect to other performance of this contract, shall be limited to that part of the contract price allocable to the product (or part thereof) that gives rise to the claim.

A. Seller shall not be subject to any disclaims: (1) any other obligations or liabilities arising out of breach of contract, (2) any obligations whatsoever arising from tort claims (including negligence and strict liability) or arising under other theories of law with respect to products sold or services rendered by seller, or any undertakings, acts or omissions relating thereto, and (3) all consequential, incidental and contingent damages whatsoever.

B. Without limiting the generality of the foregoing, Seller specifically disclaims any liability for penalties (including administrative penalties), special or punitive damages, damages for lost profits or revenues, cost of any product recall, loss of use of products or any associated equipment, cost of capital, facilities or services, down-time, shutdown or slowdown costs, or for any other types of economic loss.

Clerical Errors

Seller reserves the right to correct all clerical errors in any quotation, order acknowledgement or invoice, during the entire sales process.
